

IDEAS! COMING FALL 2011!

A two year program designed to provide the **knowledge, practical teaching strategies & support materials** necessary to improve instructional techniques and classroom atmosphere!

Practical Classroom Practices for Teachers of Mainstreamed Autistic Students...

- Meet the unique social, communication and instructional needs of your autistic students
- Build teacher knowledge and confidence
- Provide a Tool Box of teacher materials designed specifically for autistic students
- Provide individual teachers with side by side coaching support addressing the implementation of strategies presented during the workshops
- Provide teachers with practical ideas and suggestions in order to build positive parent/teacher/school relationships
- Design a comprehensive program to improve relations between school districts and the public, including understanding of IDEA requirements
- Establish programs which are internally self-supporting and developing possible local teacher mentors

Improving the Development & Education of Autistic Students

As the number of students with autism continues to climb, the relative number of teachers and teacher mentors prepared to work with mainstreamed students with autism declines.

Based on a PROVEN, SUCCESSFUL model being used in schools NOW!

Delivered by Instructors Experienced in:

- *Conducting autism workshops*
- *Observing & Analyzing the behavior of autistic children*
- *Assisting teachers who are working with autistic children & their parents*
